JOINT SOLUTIONS FOR BEST HOME AUTOMATION

EKINEX WALL MOUNTING DEVICES
ARE NOW NATIVELY INTEGRATED IN CONTROL4!

FF SERIES

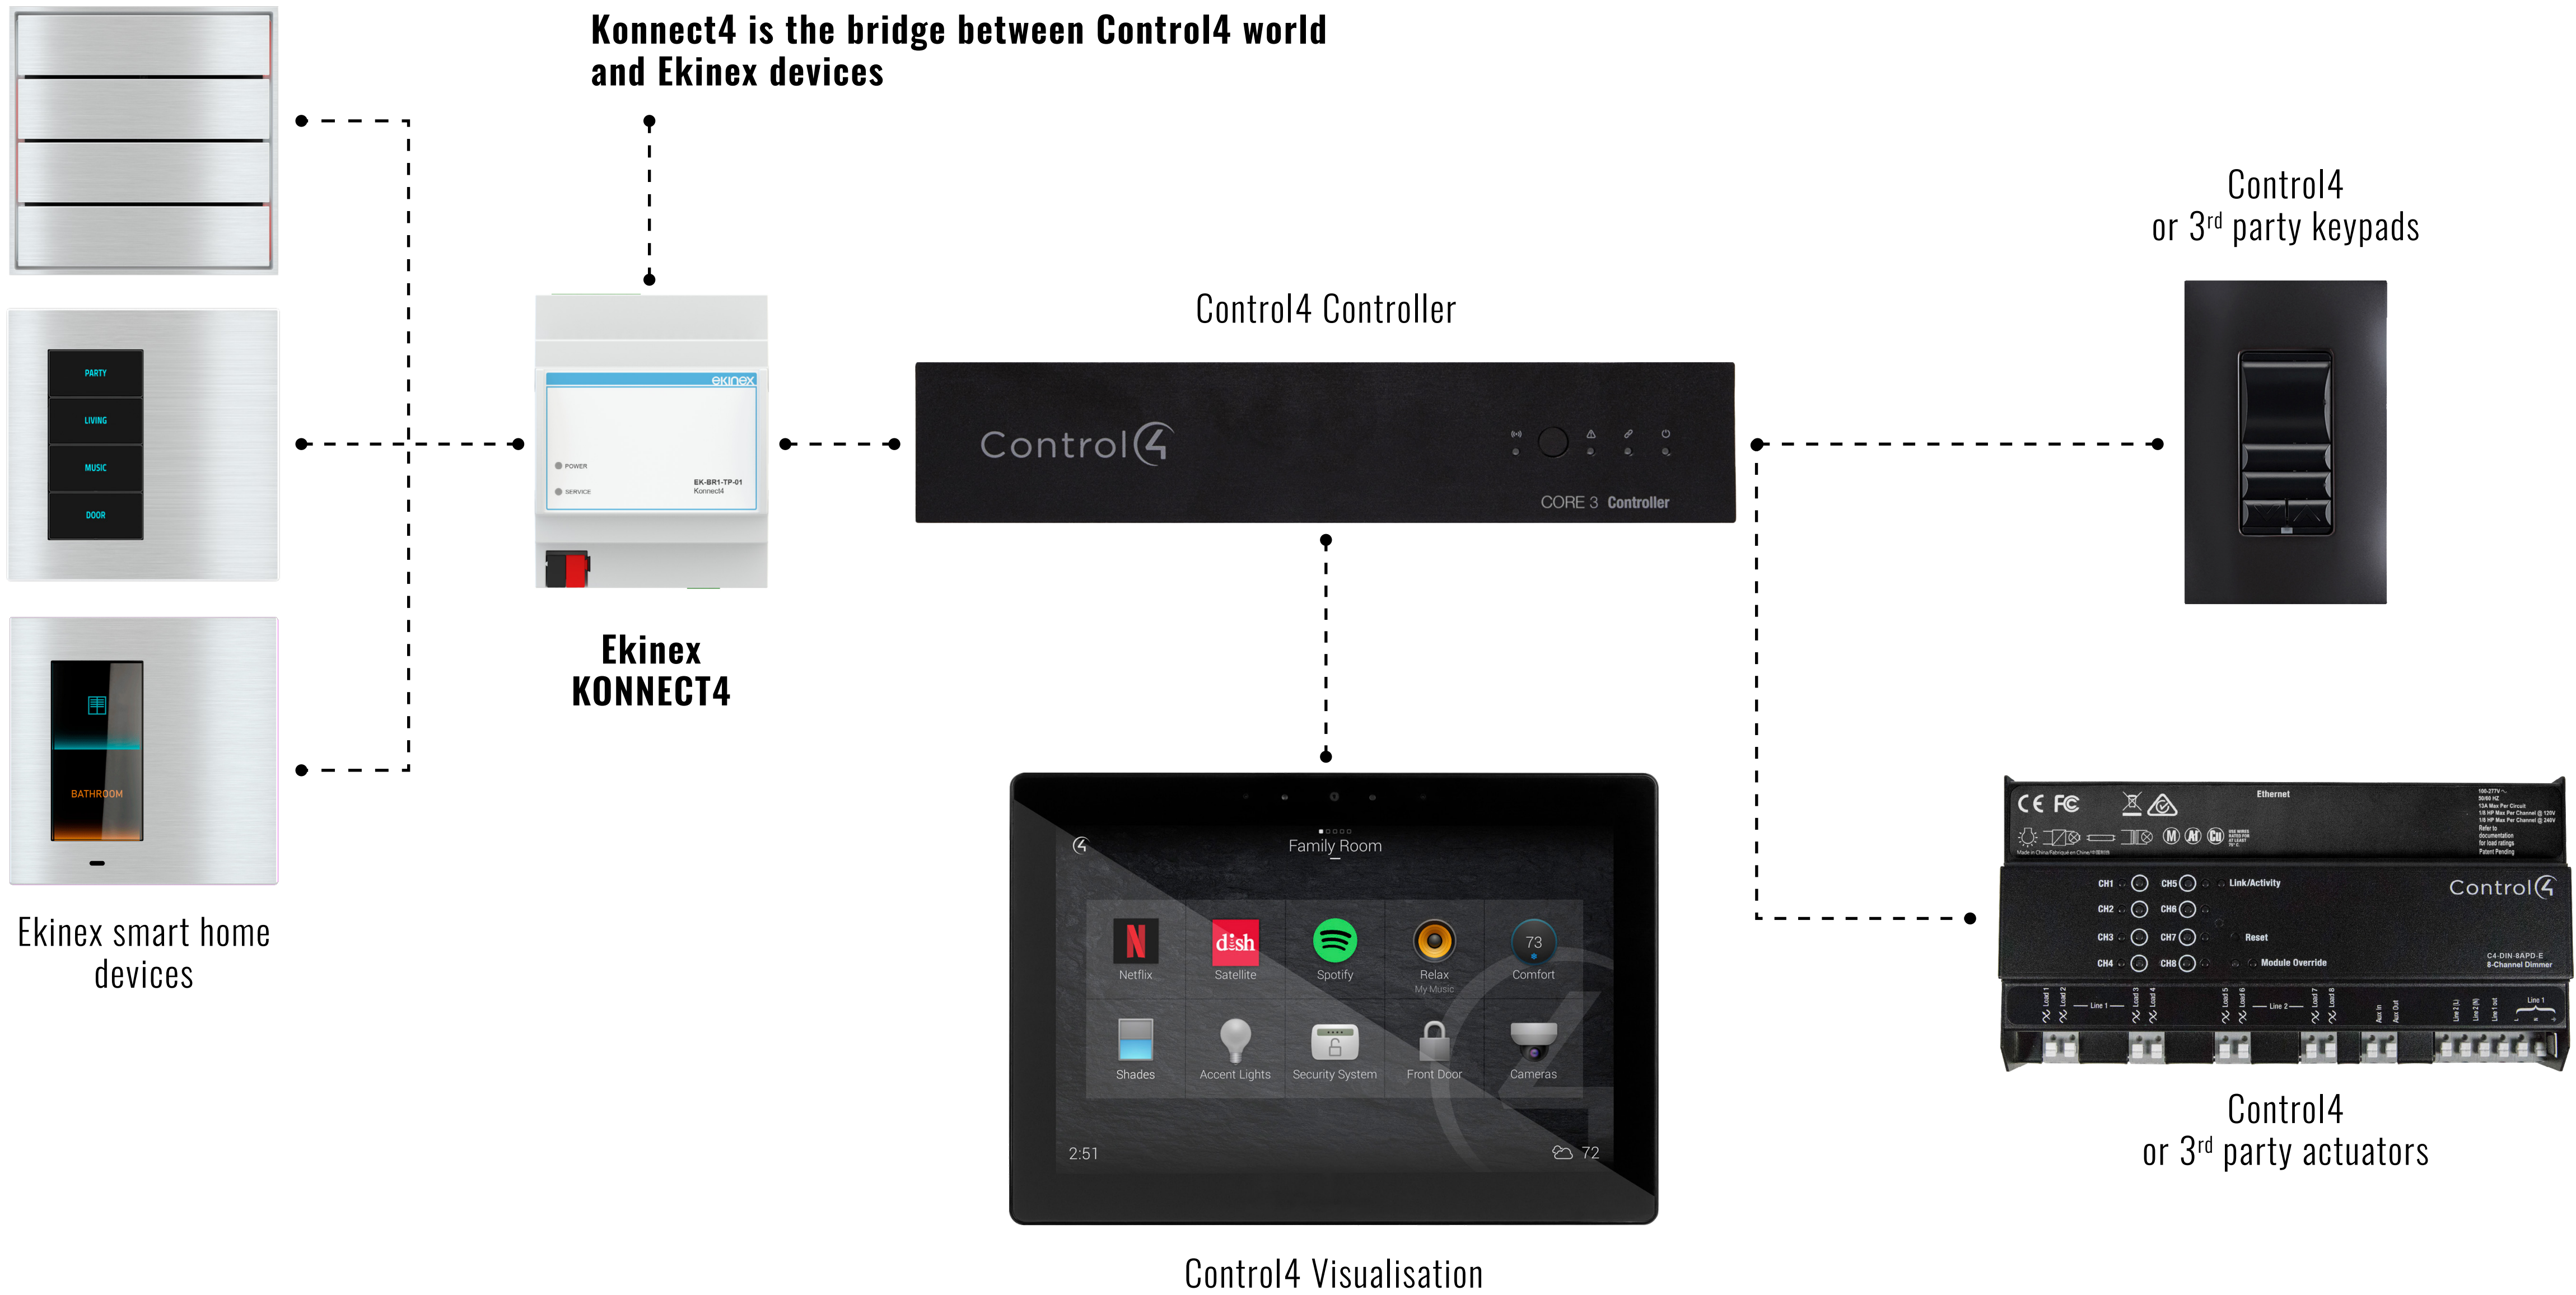

71 SERIES

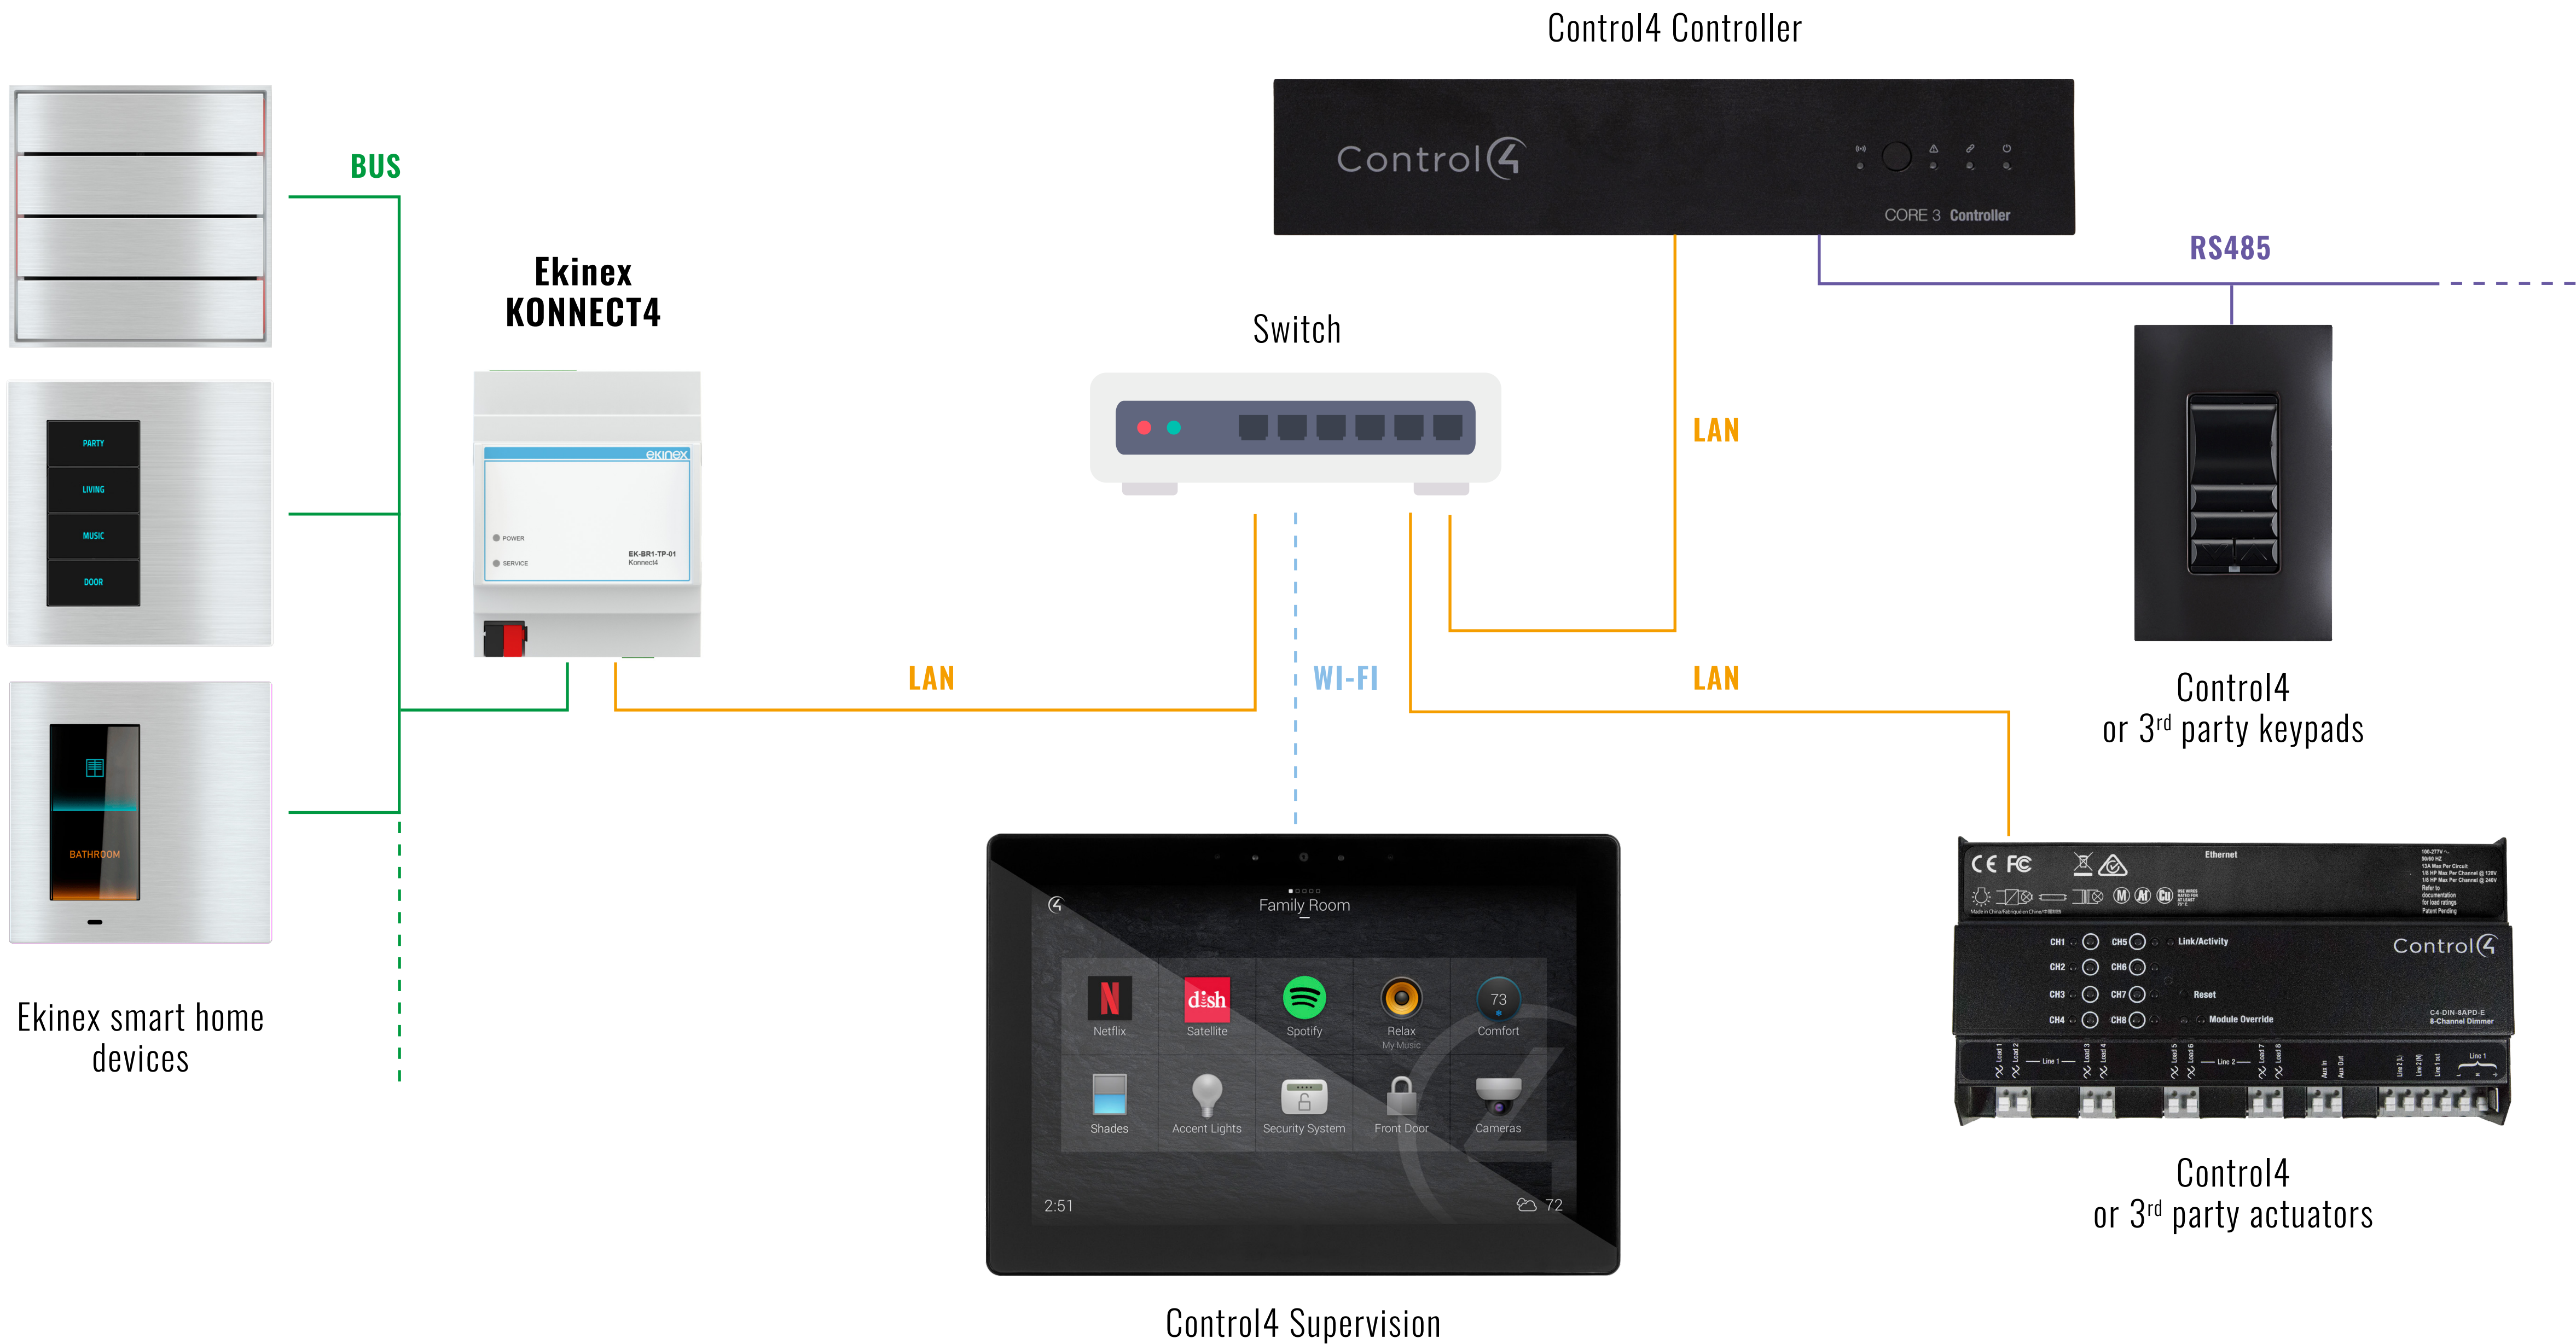

20VENTI SERIES

SIGNUM

Flexibility of combining **EKINEX** and **CONTROL4** products in the same installation

Very easy cabling for installers

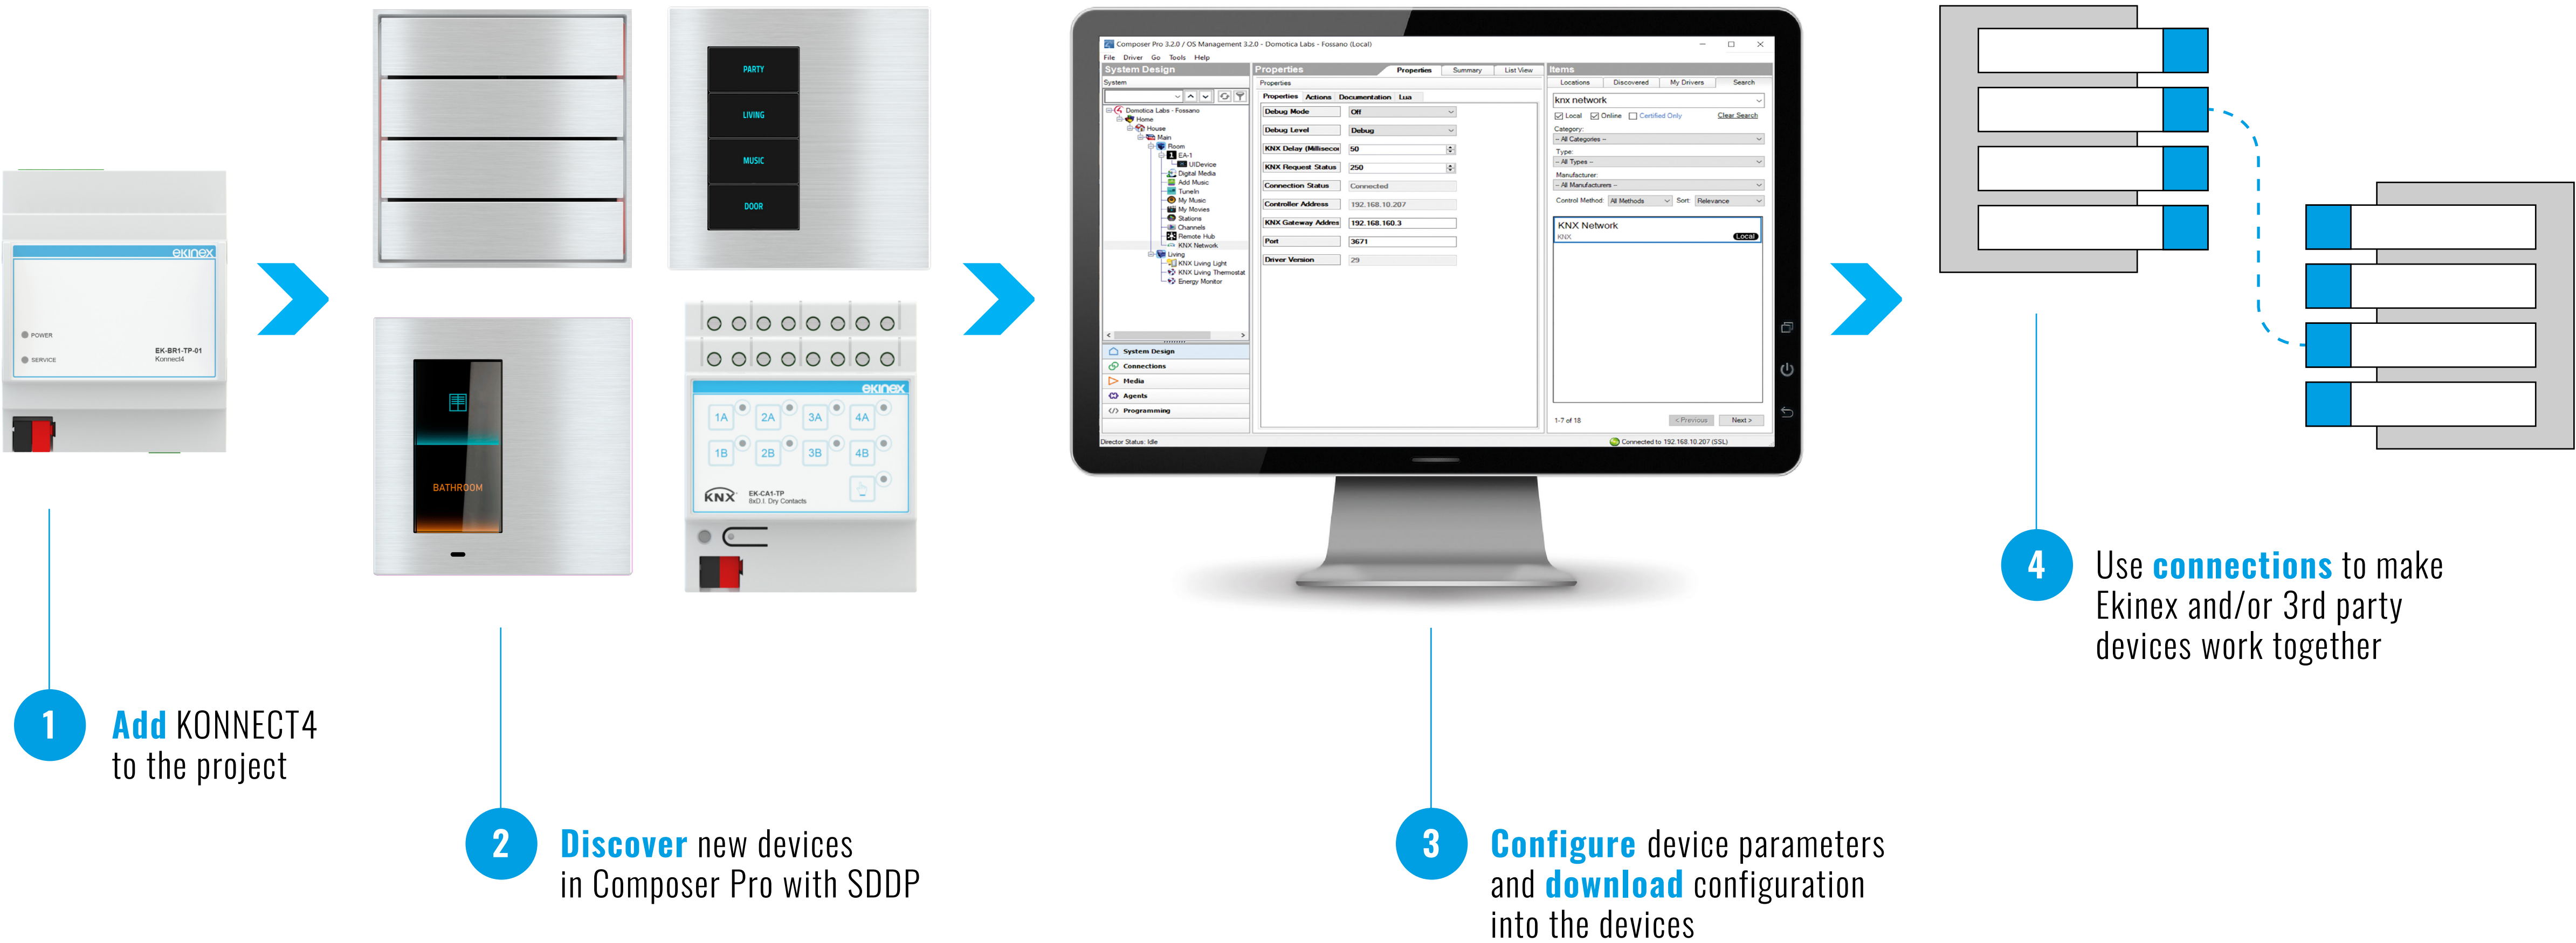

Enhancement of the Control4 proposal with design-oriented products

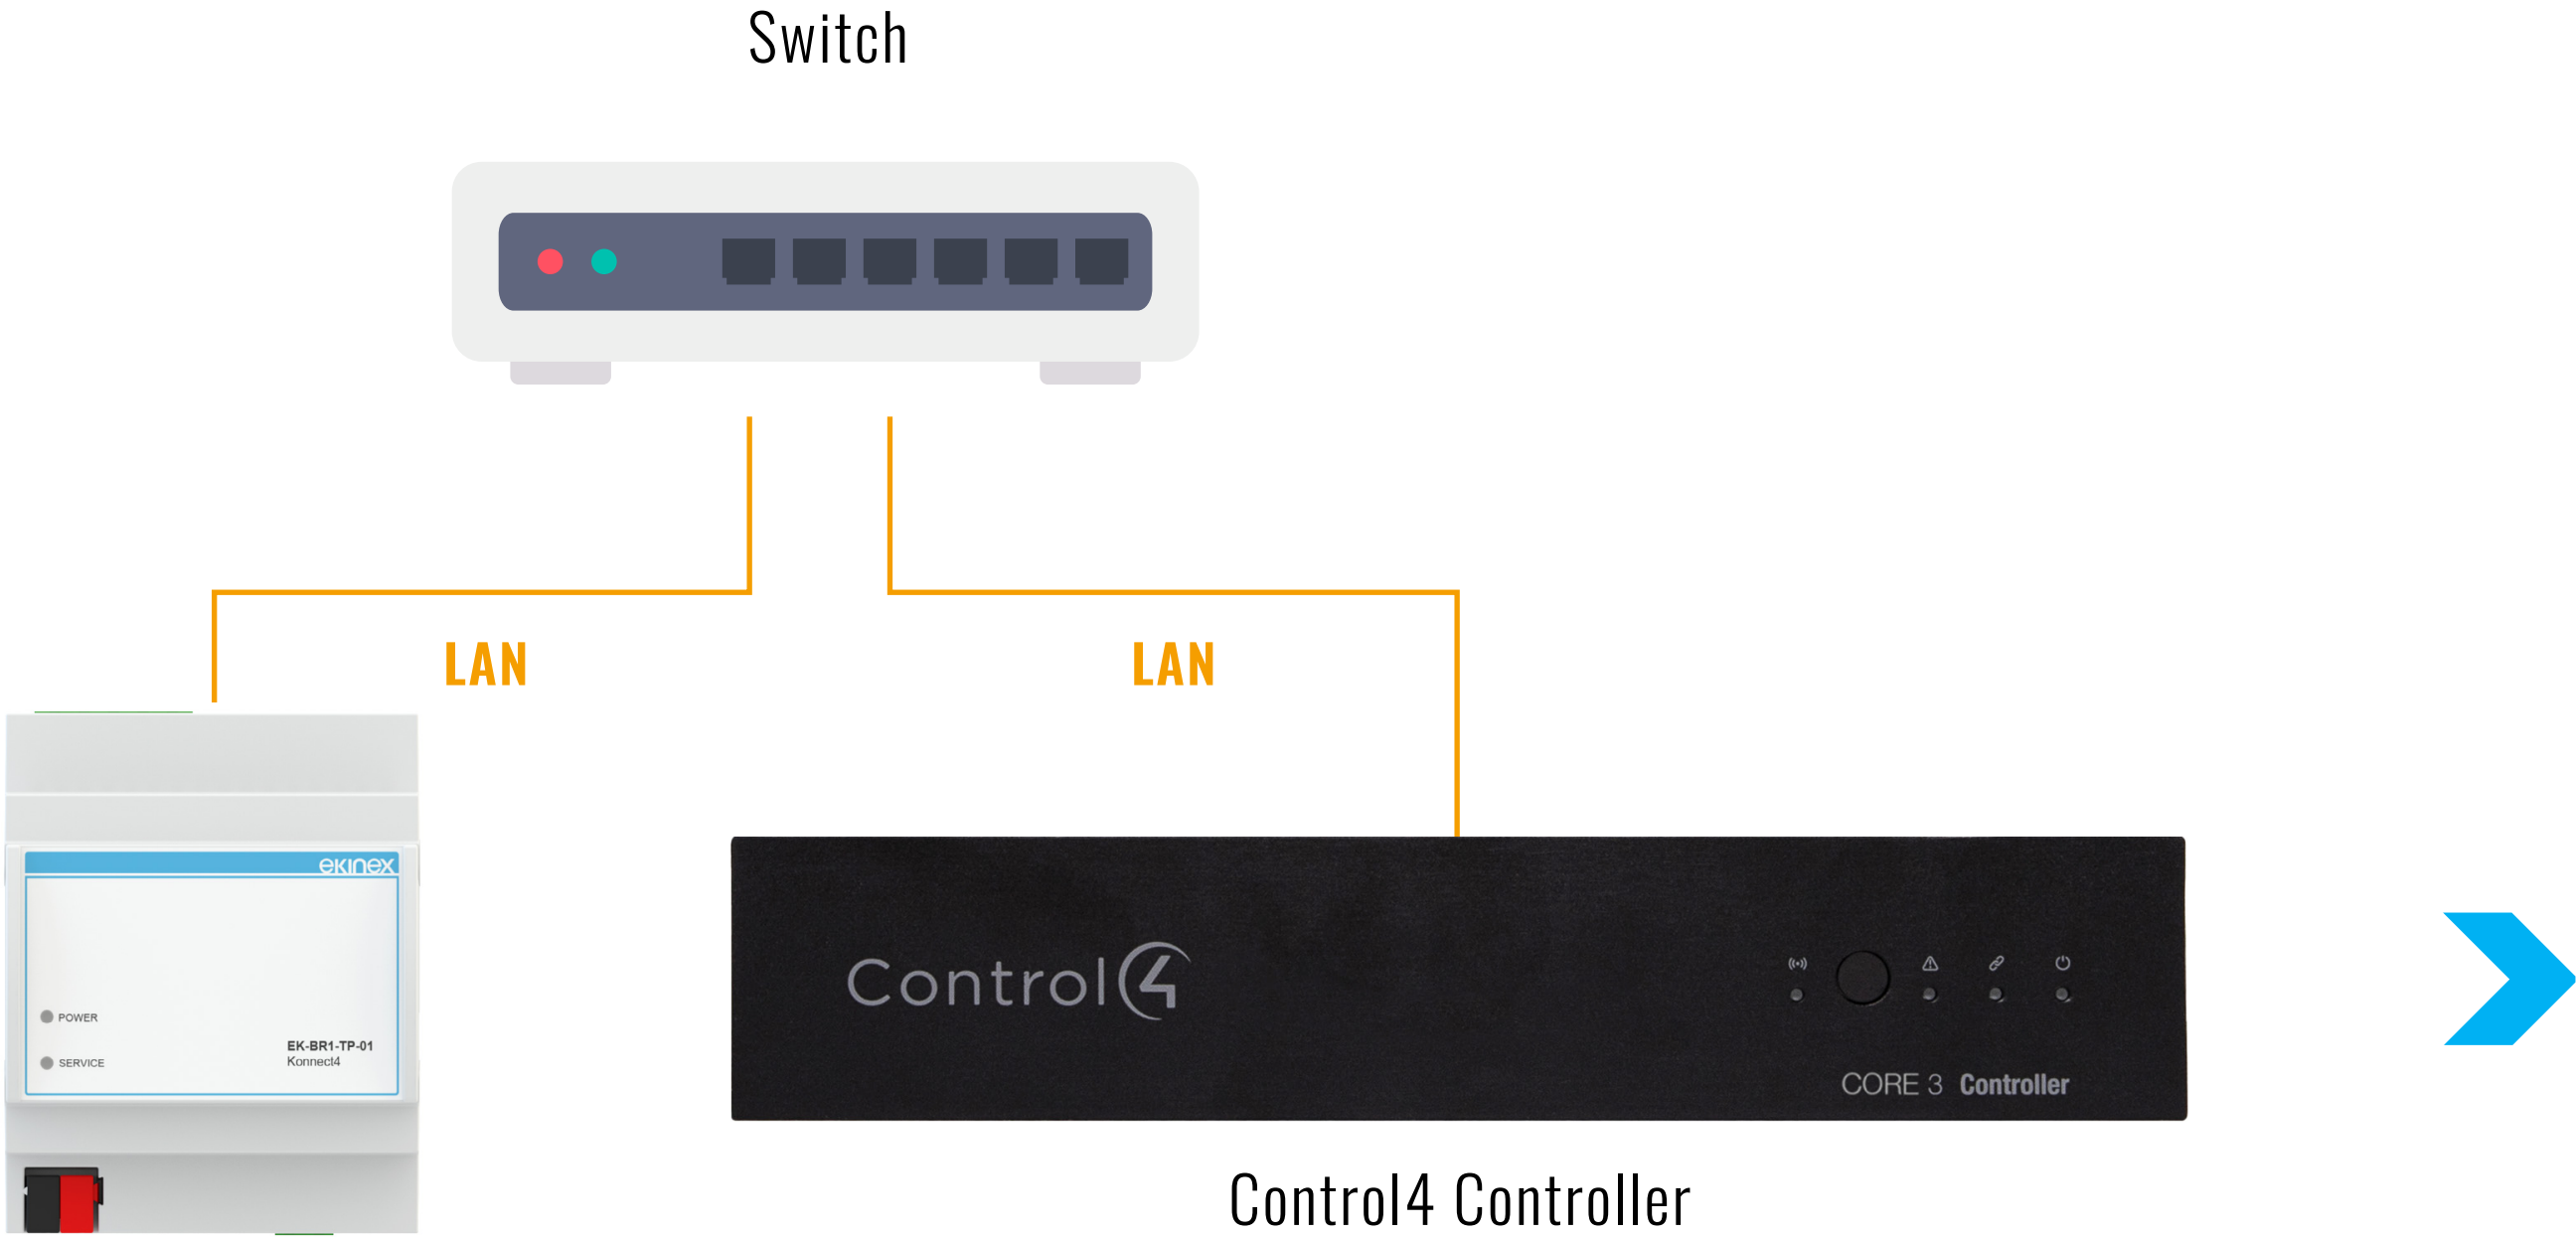

The same devices can be used by KNX professionals (with ETS) and by non-experts directly in Composer Pro

Maximum reliability being the solution based on KNX standard

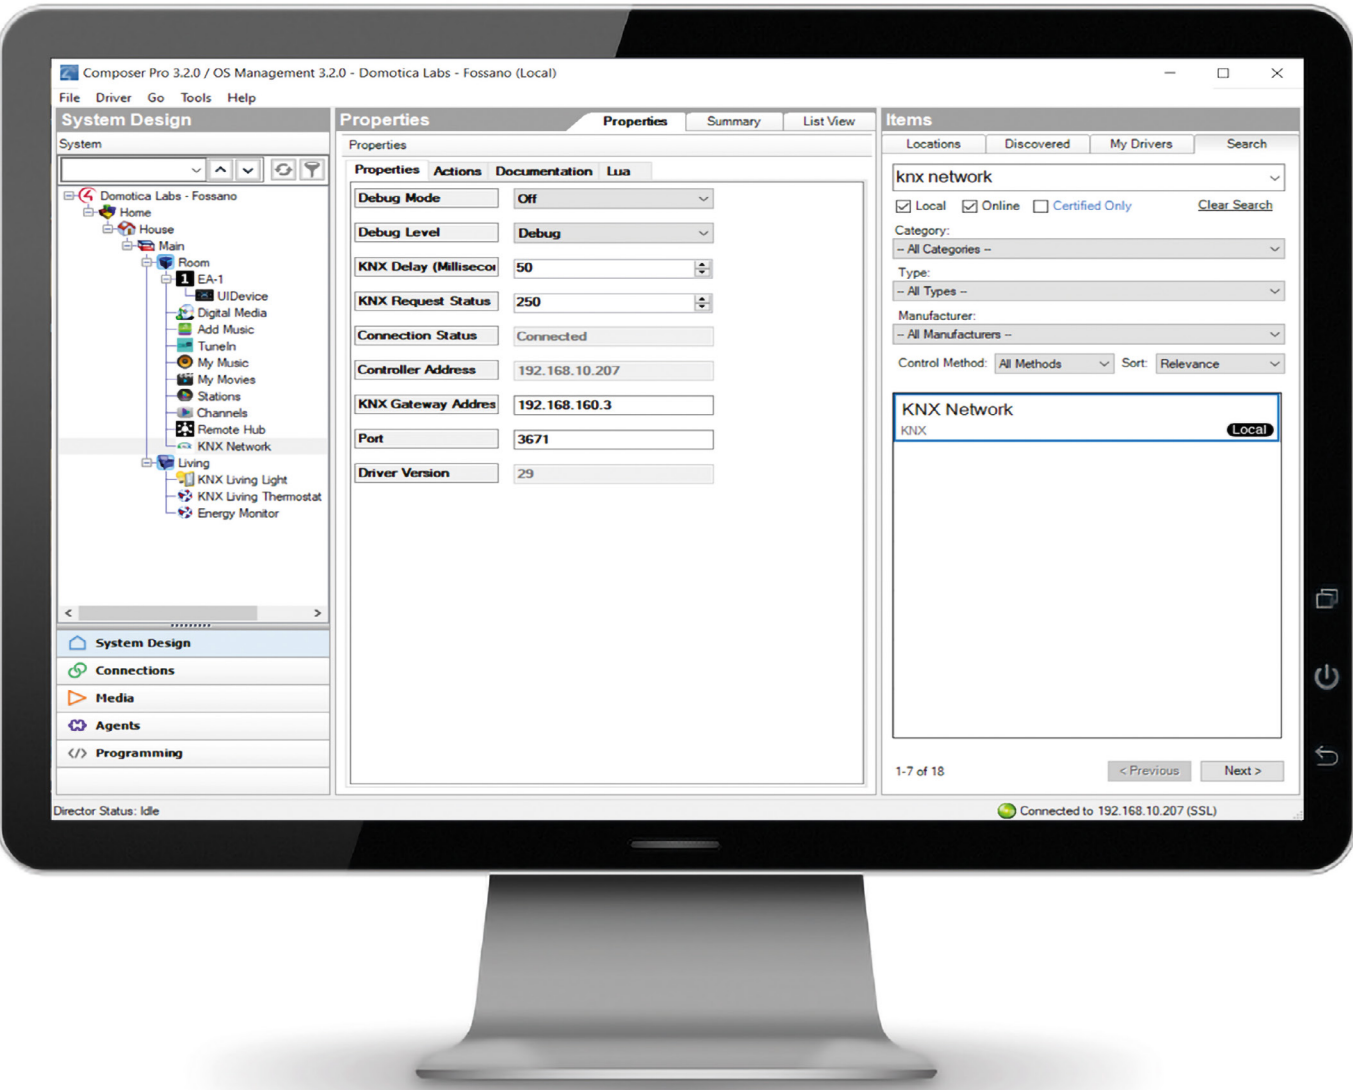

Win-win product offering for all markets, by fitting the different needs, styles and expectations of installers and end users

All the procedure is done in Composer Pro

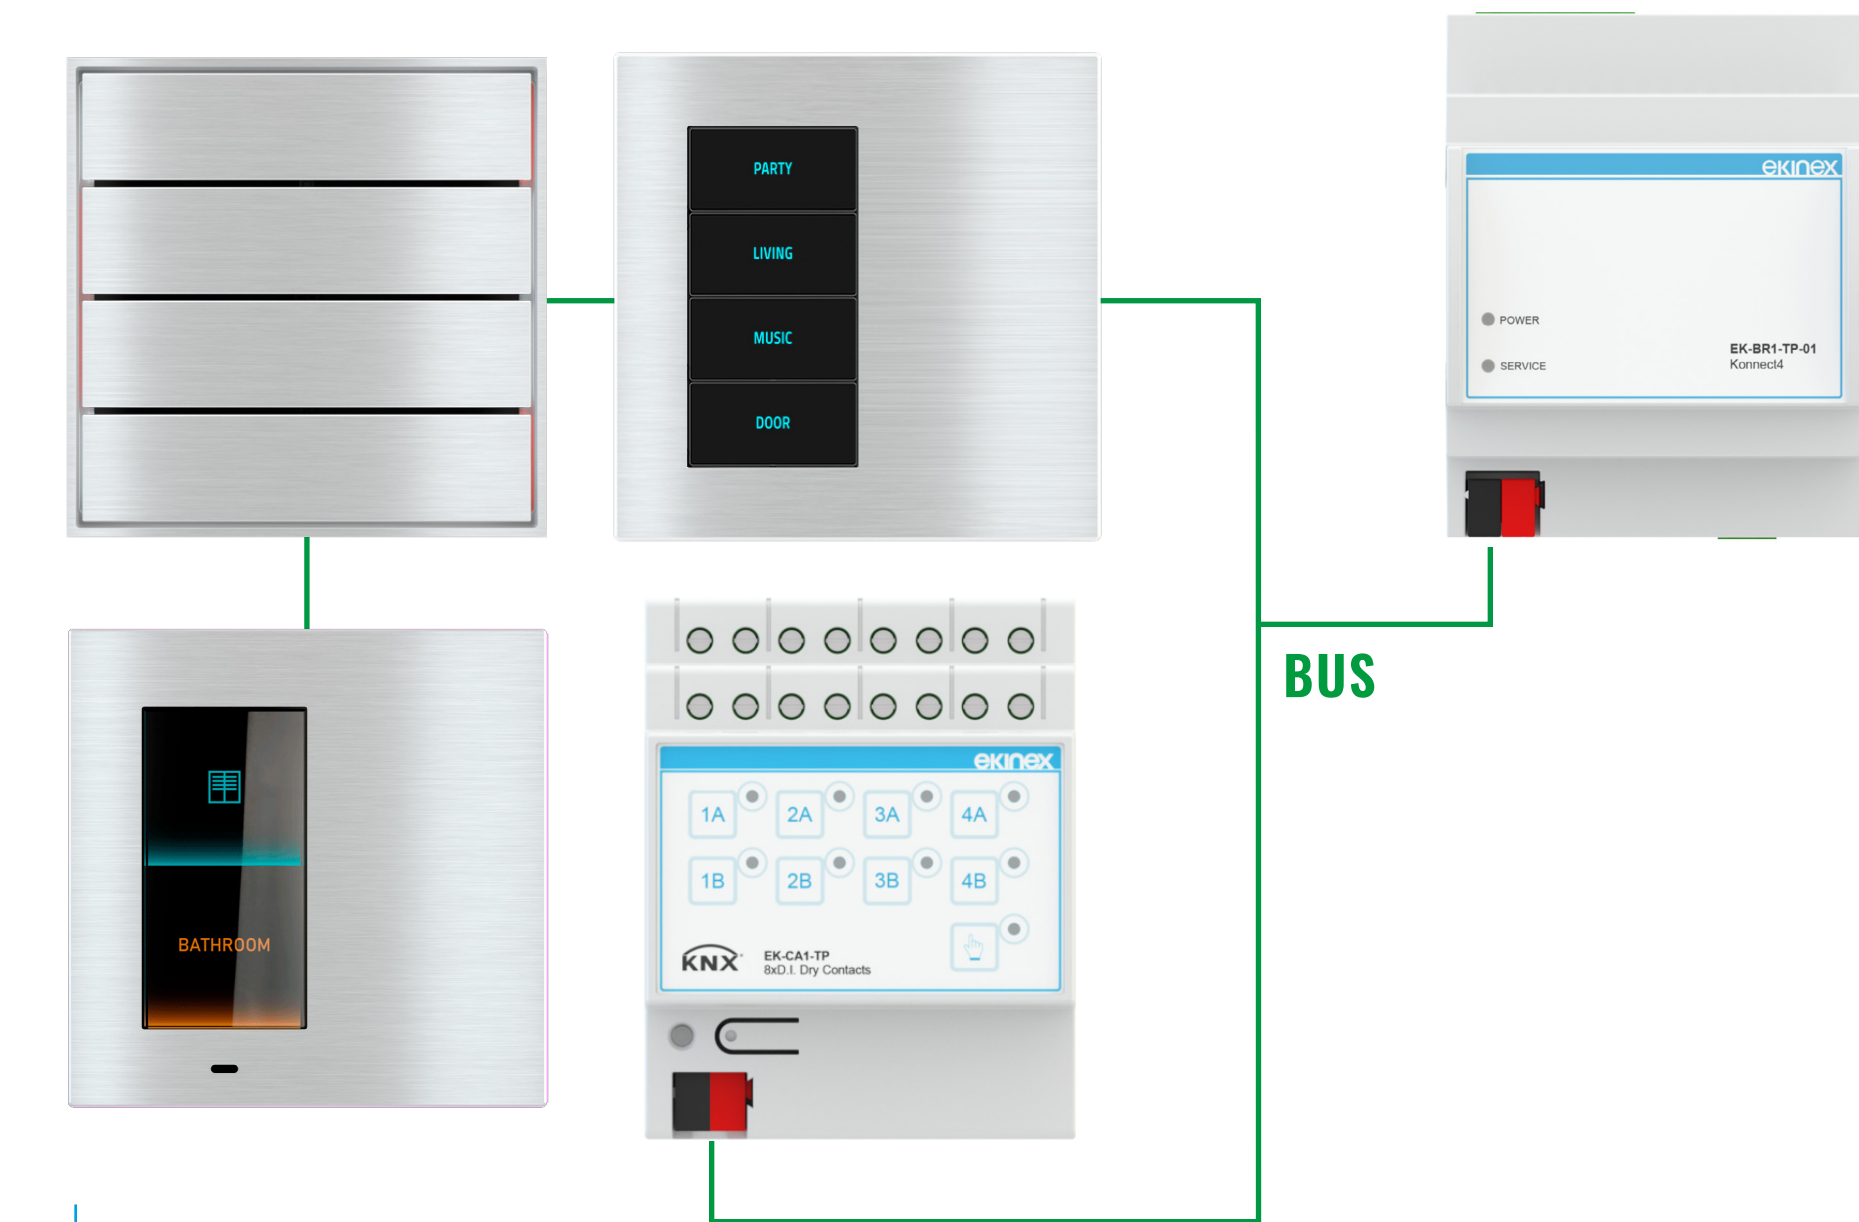

Konnect4 is automatically recognised by Composer Pro via SDDP. No need to enter its IP address or any other complex configuration

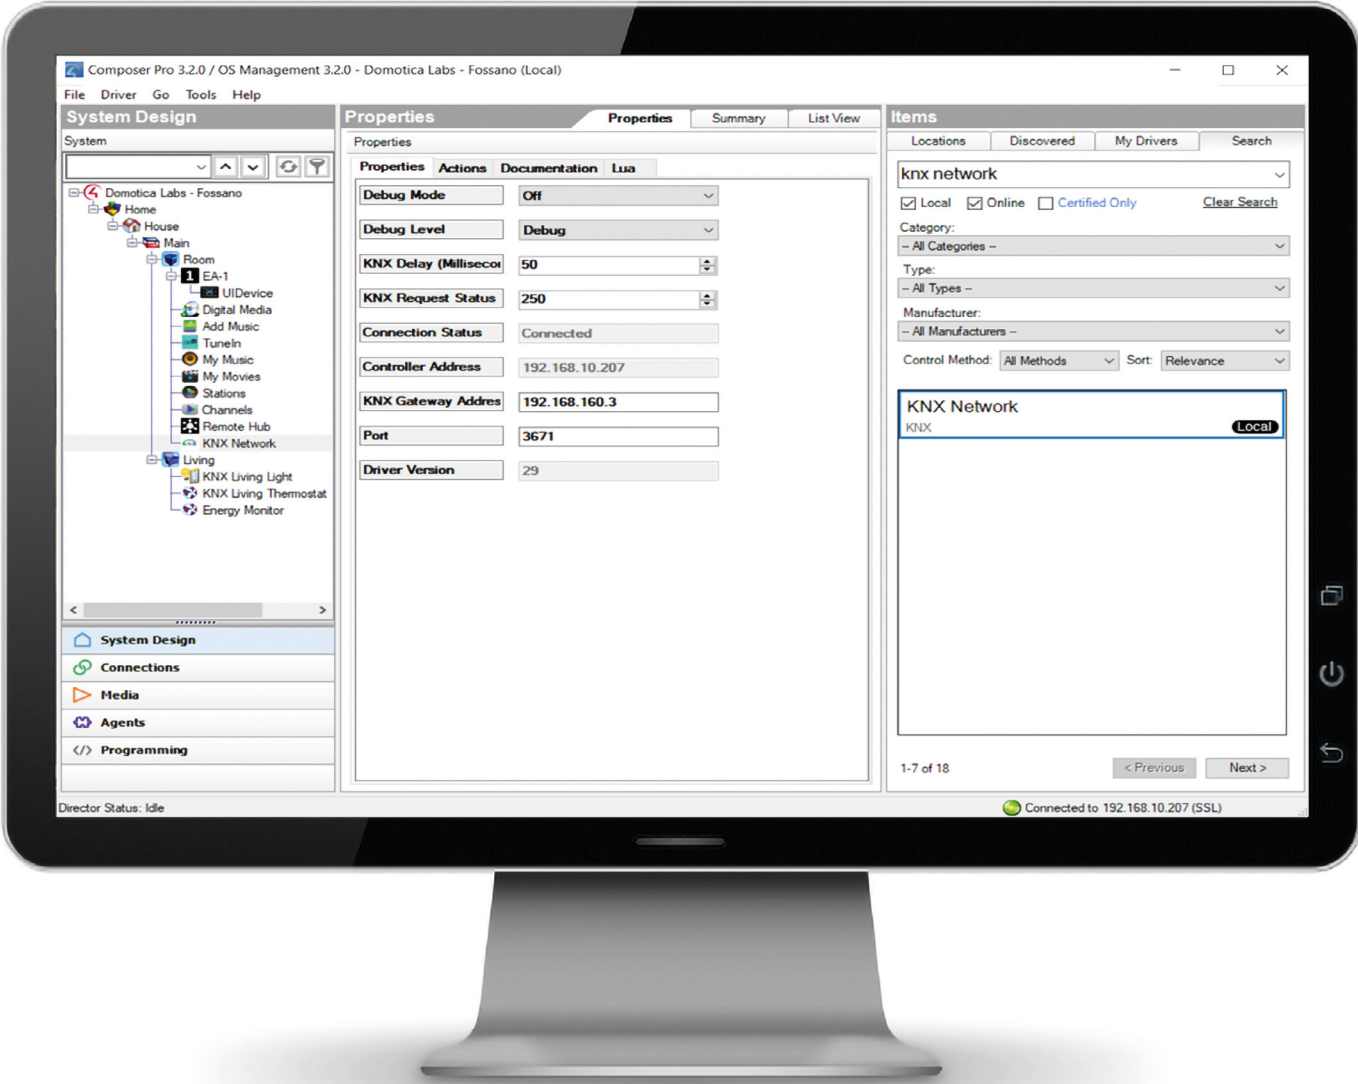

1A **Connect** Konnect4 to the same LAN of the Control4 controller

1B Double-click on SDDP discovery to **add Konnect4 driver** to the project

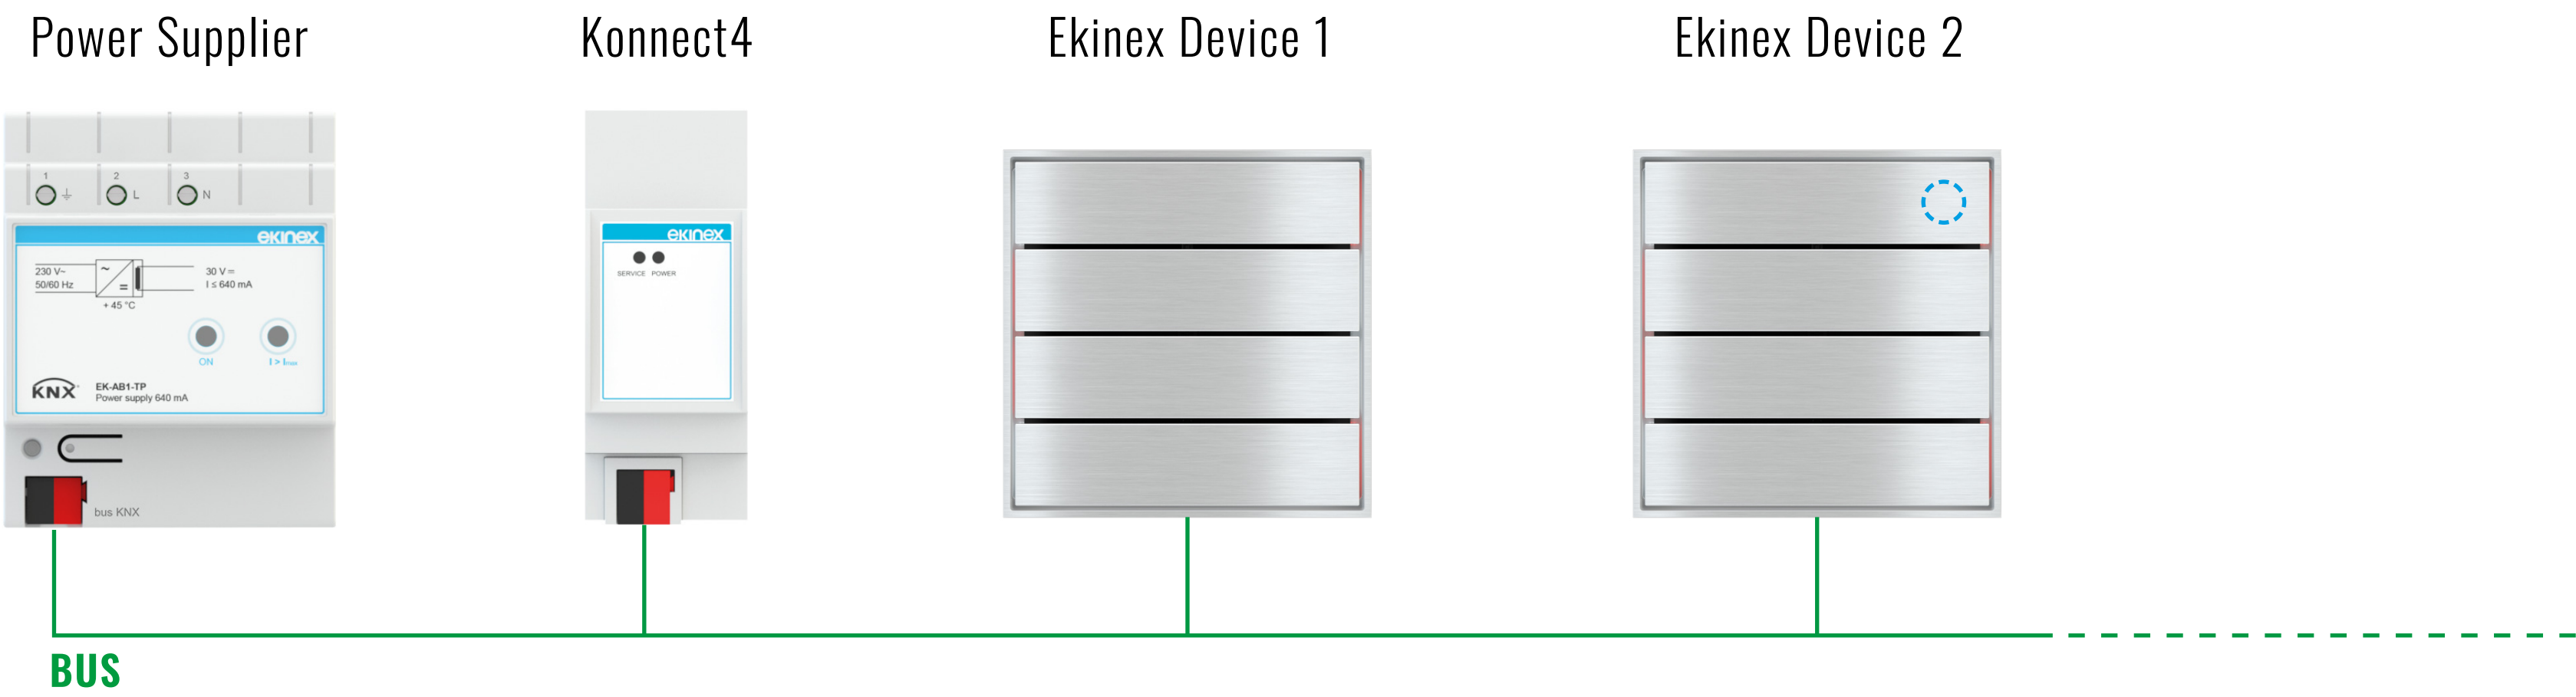

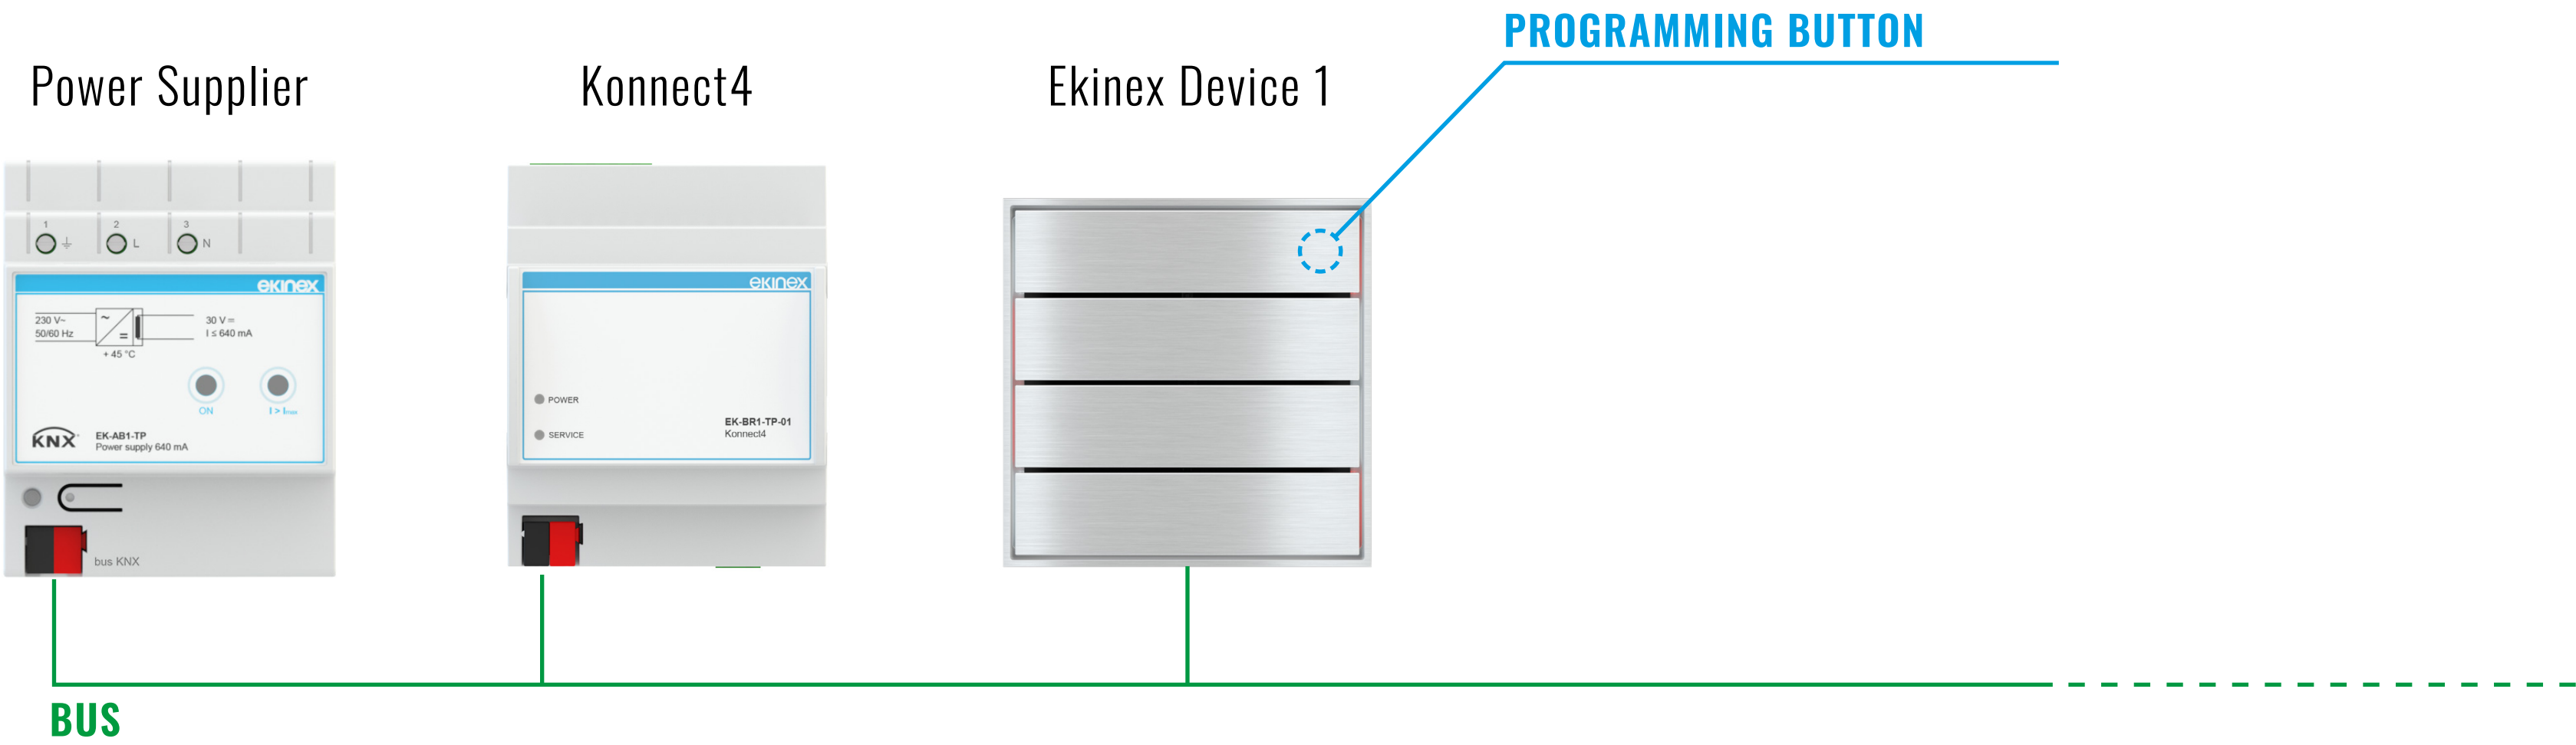

As soon as a new device is connected, Konnect4 assigns a unique address and make it available in the SDDP discovery tab

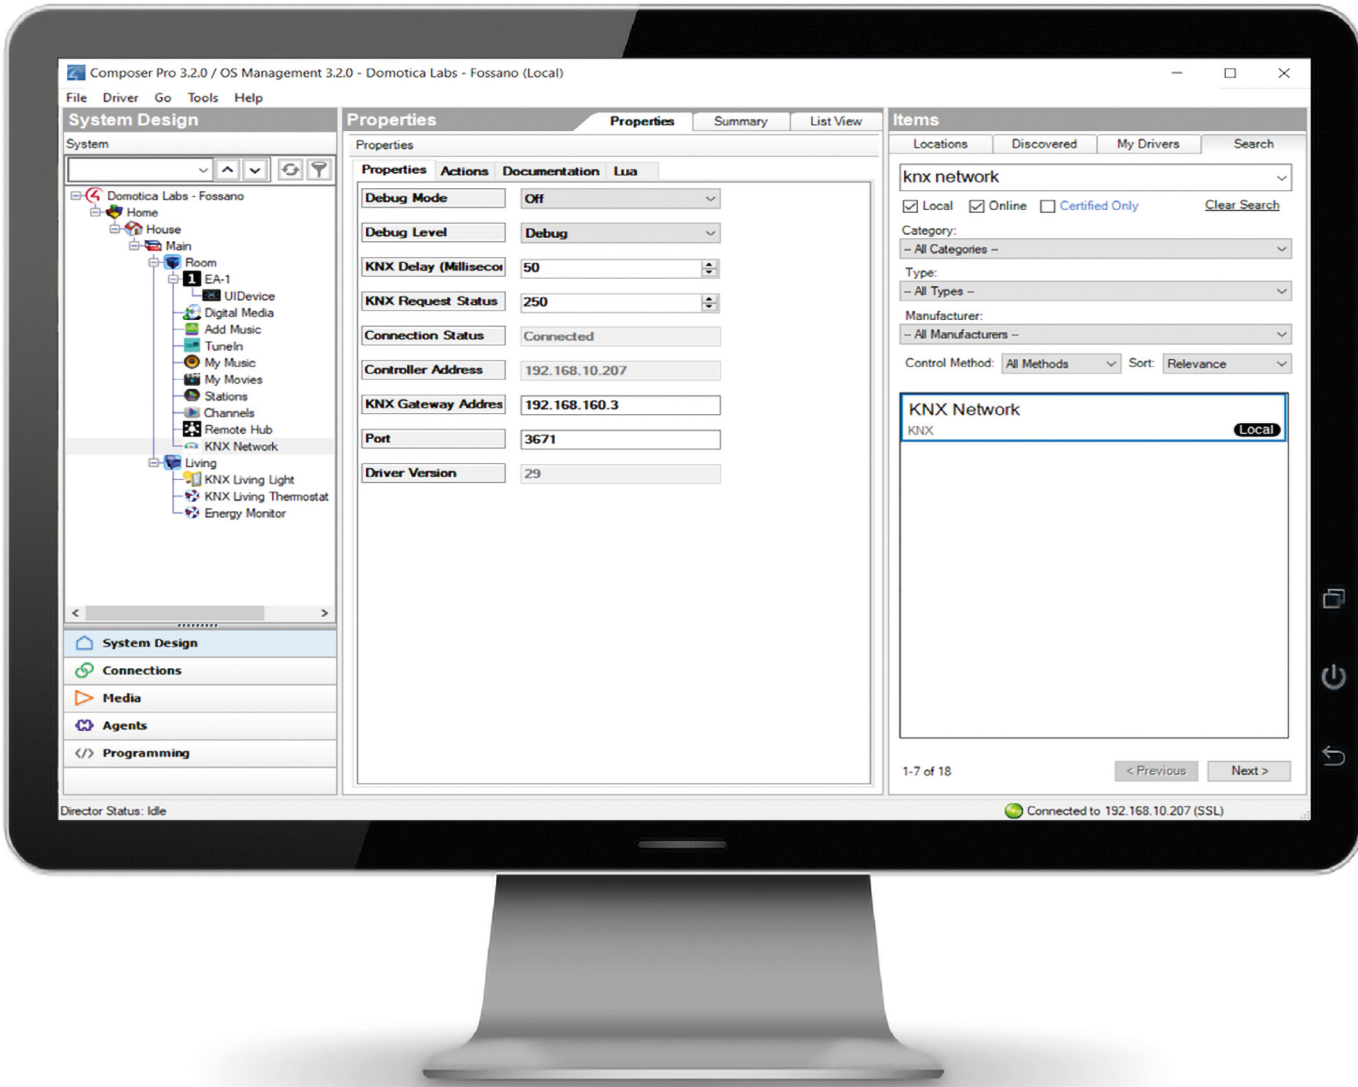

2A **Connect** the devices one-by-one and press the programming button

2B Double-click on SDDP discovery to **add the device drivers** to the project

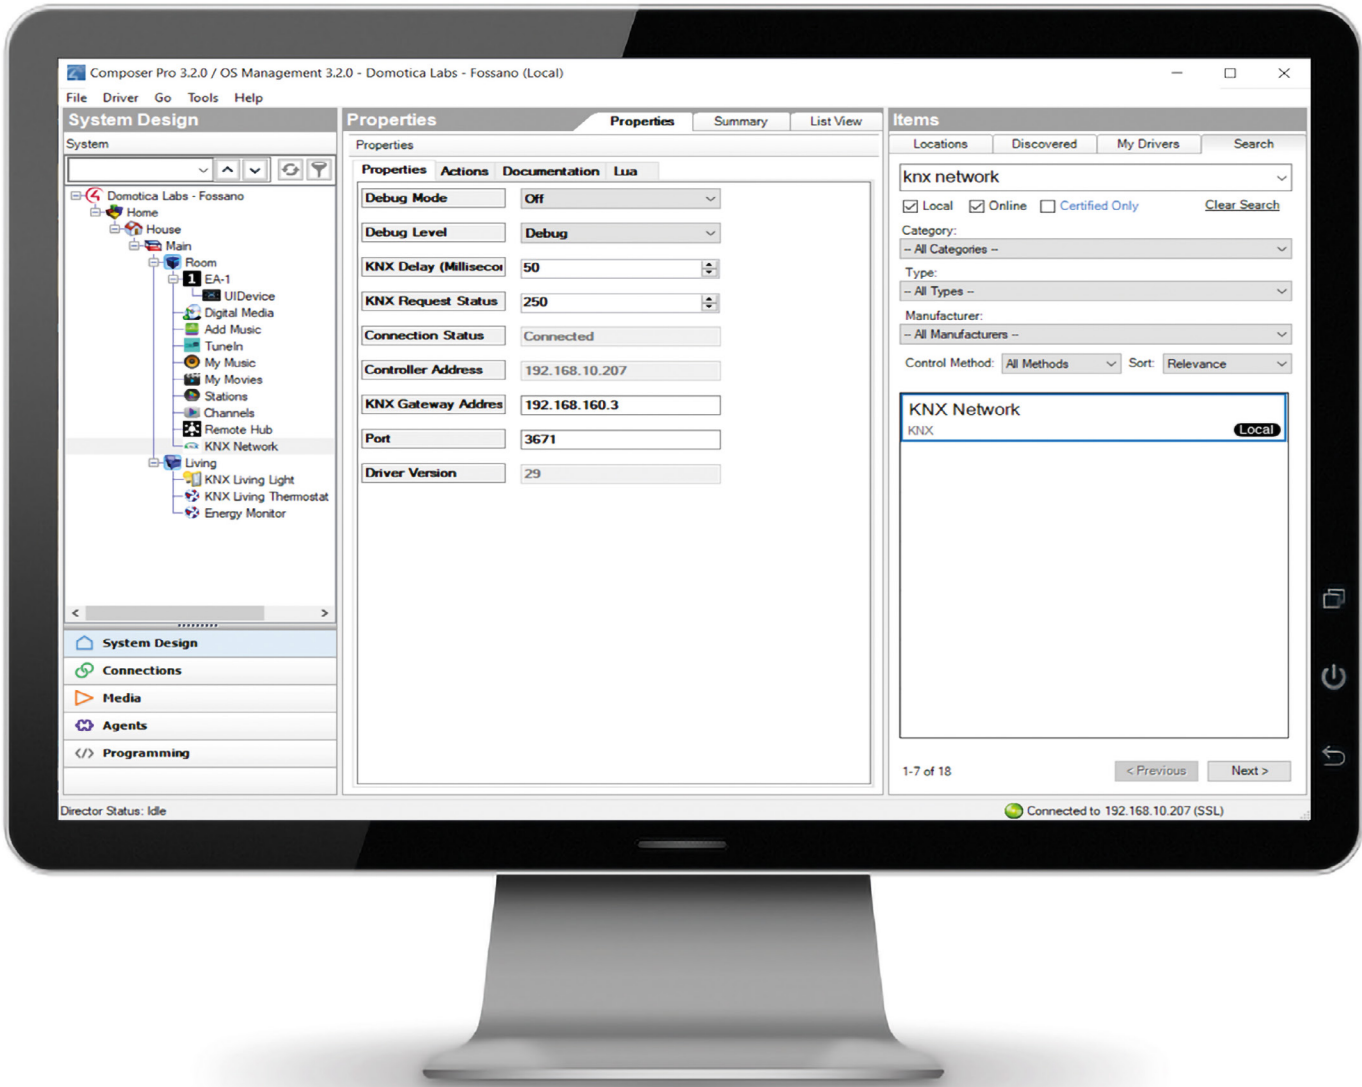

The device actual configuration is automatically synchronized with the driver in Composer Pro without additional actions

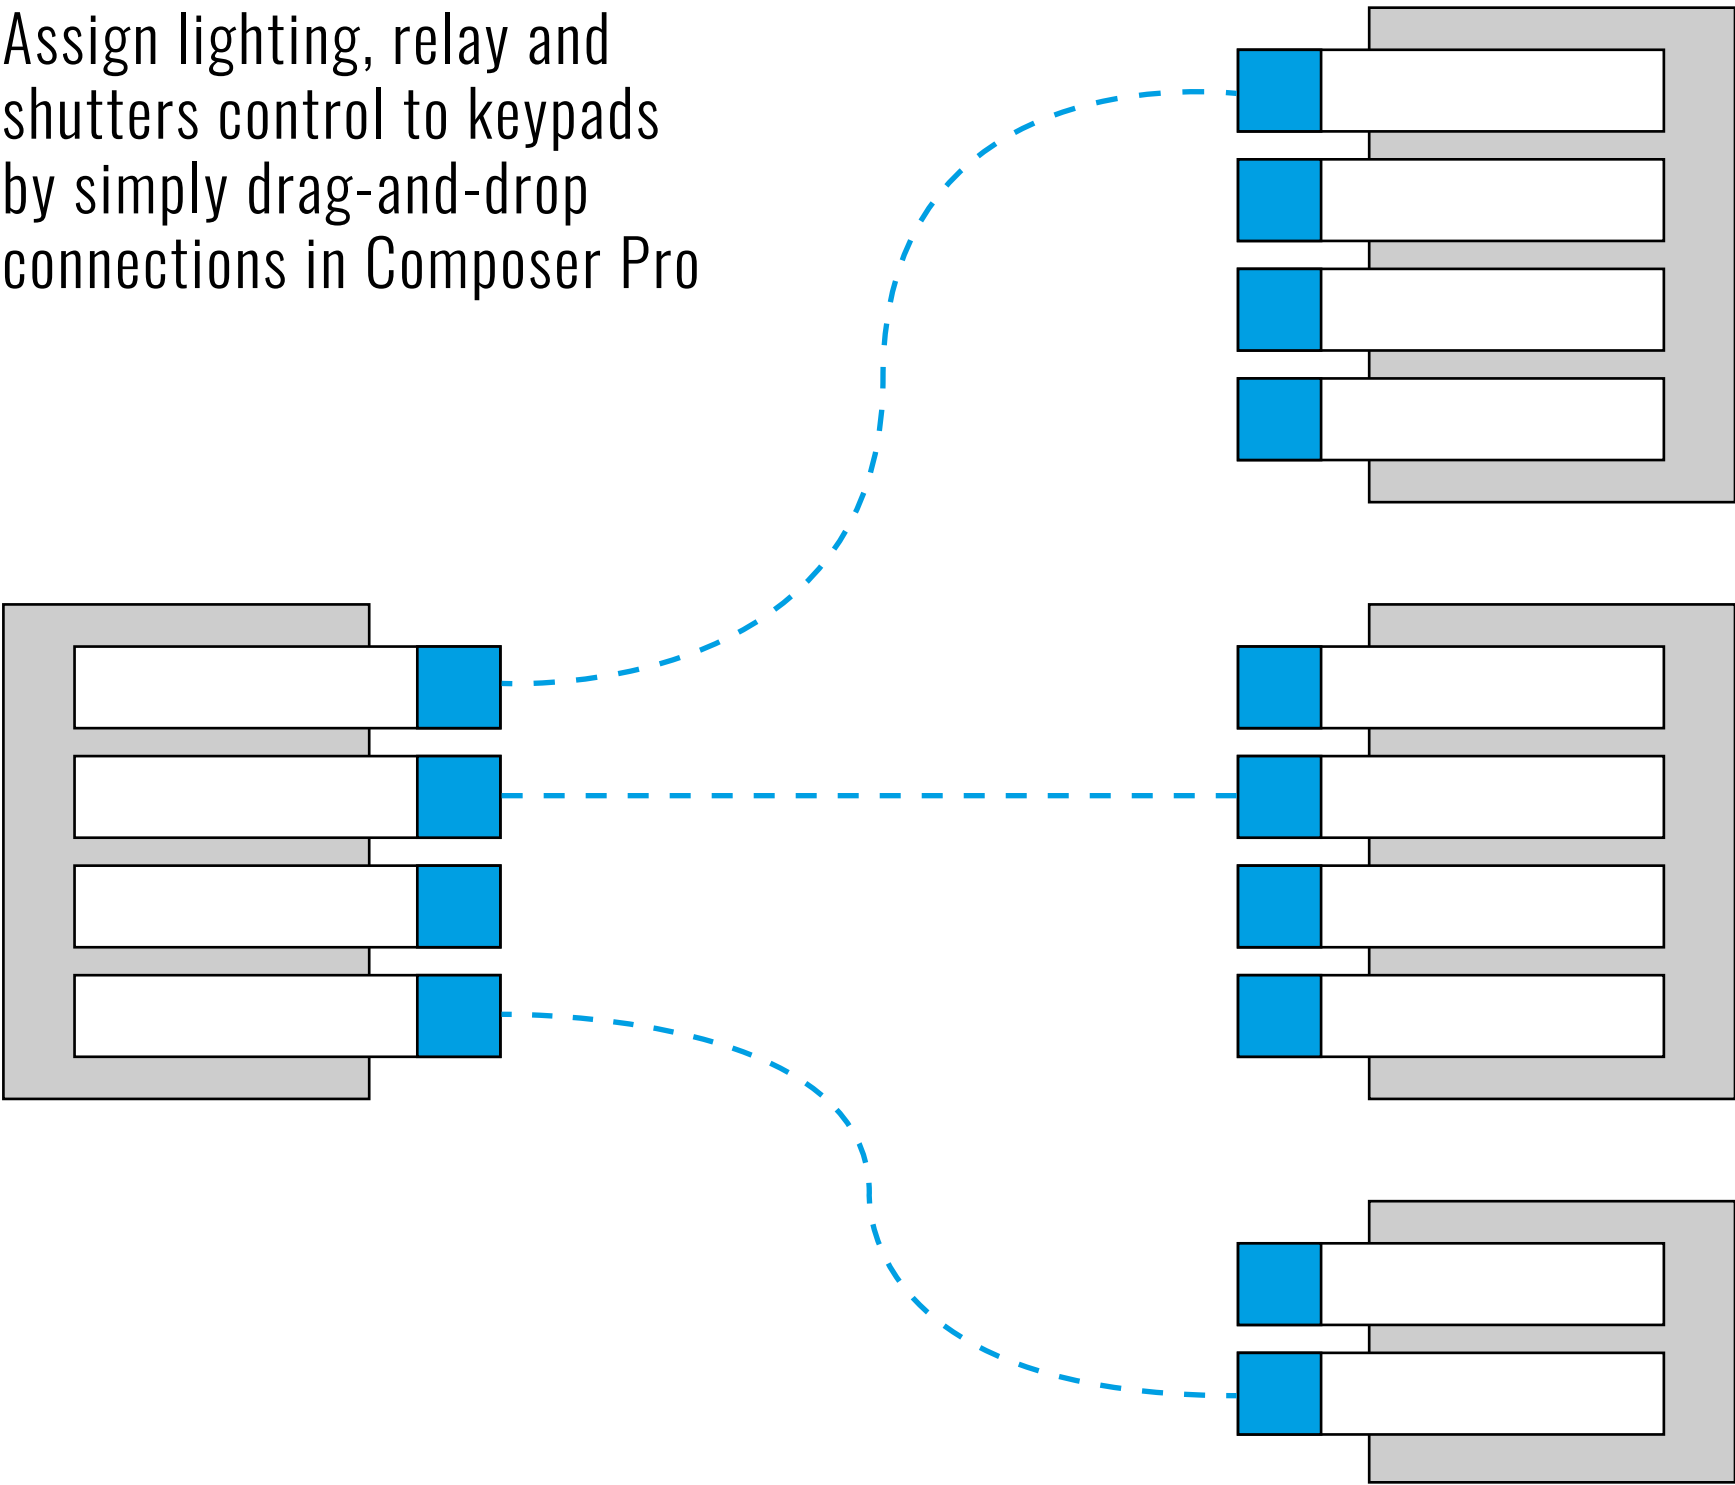

3A Adjust settings for each device (e.g. keypad LEDs, long press time etc...) in the **property panel** of the corresponding driver

3B **Download** automatically parameters and addressing into the devices

Assign lighting, relay and shutters control to keypads by simply drag-and-drop connections in Composer Pro

4

Bind the **BUTTON_LINK connections** of the device drivers together, in order to obtain the desired functionality
